WOCA Natural Soap Spray – cleaning and protection

(combined instructions for white and colorless soap)

Description: ideal for cleaning and maintenance of oiled, waxed and natural soaped surfaces. Natural Soap is a pre mixed quality soap, which due to its nourishing properties quickly closes the pores of the wood and protects against dirt and penetration of liquids. Natural Soap White is recommended for surfaces treated with white oil, while Natural Soap Natural is ideal for surfaces treated with natural or Colour Oil. The ready-mixed Spray makes the maintaining of oiled furniture, doors, table tops, panels, stairs, floors... easier.

- For regular cleaning
- Nourishing effect
- Suitable for toys
- Ready mixed
- Indoor climate labelled

Colors: natural/colourless and white

Density: 0.95-1.00 g/ml.

pH-value: pH 10-11

Application area: for cleaning and maintenance of oiled, waxed and natural soaped surfaces.

Surface preparation: very dirty stains can be cleaned with the WOCA Wood Stain Remover or WOCA Intensive Wood Cleaner.

! Always remember to test on a less visible spot to check the compatibility of the surface with the product.

Treatment:

1. Shake the spray well before use.
2. Spray the Natural Soap on the surface.
3. Wipe down the surface with a cotton cloth.

Use cloths with high cotton content. Don't use cloths containing microfiber only.

Areas with heavy wear may be maintained with WOCA Maintenance Oil or WOCA Maintenance Gel after cleaning with Intensive Wood Cleaner.

Application temperature: +15-25°C and approx. 50% air humidity

Cleaning of tools: use soap and water.

Storage: +10-25°C. Keep out of reach of children. Do not expose to heat (e.g. sunlight). Store frost-free during winter and cool during summer. Shelf life 2 years.
